Elke Losskarn studied graphic and photo design in Augsburg, Germany from 1982-1986. From 1989-1995 she worked for the Motor Presse in Stuttgart, where her adventurous spirit led her to journey through many different countries across all continents on a variety of motorbikes. She captured these experiences vividly and artistically on camera. Invited to do a photo assignment in South Africa in 1994, Elke's motorbike trip took her from Johannesburg to Cape Town. It was love at first sight and it was here that she made her home. Elke has illustrated 20 travel and coffee table books, and her photographic artworks have also featured in calendars and international travel magazines. Elke lives on the Cape Peninsula in picturesque Hout Bay where she runs Digital Photo Workshops for all ages.
